Audit Recap

01 · AUDIT RECAP

Key findings from AT1

Strengths to build on

Gaps & opportunities to address

• Community storytelling and short-form video generated the strongest engagement across key platforms. (NAC Social Media Dashboard, 2026)

• Instagram achieved 0.98% ER, more than double the 0.48% benchmark (NAC Social Media Dashboard, 2026).

• No YouTube Shorts despite strong existing video performance.

• Inconsistent bio copy and link strategy across platforms

• Posting activity does not consistently align with audience peak times.

• YouTube achieved a 4.90% average ER, above the 3.87% benchmark (NAC Social Media Dashboard, 2026).

Publishing Heatmap

Posts by Day of Week

• NAC demonstrates strong engagement across social media platforms, and the potential to expand its social media impact, particularly through YouTube Shorts. However, inconsistent platform linking and misaligned posting times may limit audience engagement and action. A more audience focused and consistent content strategy can address these gaps (Clampit, 2017; Quesenberry, 2020).

SECTION

02

Content Strategy

02 · CONTENT STRATEGY

YouTube — content strategy

Objectives for this platform

• Establish YouTube Shorts as a consistent content format by publishing 2 - 3 Shorts per week for six months.

• Achieve a 6% average engagement rate on YouTube Shorts within six months.

• Increase awareness of NAC among climate-engaged Australians aged 25 - 44 by achieving 80K total YouTube Shorts reach within six months.

02 · CONTENT STRATEGY

YouTube — content strategy

Why this platform?

Audience fit

Performance evidence

Strategic opportunity

YouTube Age Demographic

• Millennials are highly active across social media, including YouTube (Sprout Social, 2026). Adults aged 25–44 account for nearly 40% of YouTube users (Chaves, 2026).

• NAC’s existing long-form YouTube content achieved a 4.90% average ER, above the 3.87% benchmark, demonstrating an established foundation for audience engagement on the platform (NAC Social Media Dashboard, 2026).

• NAC currently publishes no YouTube Shorts, while Shorts average 200 billion daily views globally, presenting an opportunity to expand NAC’s established video persence into short-from content (NAC Social Media Dashboard, 2026; Chaves, 2026).

• Chart created by Ben Nguyen using Canva, based on data from Ispirli (2025).

02 · CONTENT STRATEGY

02 · CONTENT STRATEGY

Instagram — content strategy

Objectives for this platform

• Establish a consistent Instagram link-in-bio strategy using trackable UTM links within the first month and maintain it for six months.

• Schedule at least 80% of Instagram posts within the identified 7 - 9 AM and 5 - 8 PM peak windows, prioritising Wednesday and Thursday, over six months (NAC Social Media Dashboard, 2026).

• Increase Instagram’s average engagement rate from 0.98% to 1.5% within six months through audience-tailored content and optimised posting times.

02 · CONTENT STRATEGY

Instagram — content strategy

Why this platform?

Audience fit

Performance evidence

Strategic opportunity

• Young Advocates aged 18–24 primarily engage through short-form, shareable content (NAC Social Media Dashboard, 2026). Instagram strongly aligns with this segment, with 41% of Gen Z consumers planning to spend more time on the platform than any other social network (Sprout Social, 2026).

• Instagram is NAC’s strongest social platform with 30.0K followers, 885.9K reach with a 0.98% average ER, more than double the 0.48% benchmark (NAC Social Media Dashboard ,2026).

• Consistent UTM-tracked links and peak-time posting can strengthen NAC’s pathway from engagement to action and maximise content exposure (Clampitt, 2017; Landers, 2017).

02 · CONTENT STRATEGY

02 · CONTENT STRATEGY

LinkedIn — content strategy

Objectives for this platform

• Schedule LinkedIn posts within NAC’s identified peak windows of 8 - 10 AM and 12 - 1 PM AEST,

• Tuesday–Thursday, prioritising Wednesday, for six months (NAC Social Media Dashboard, 2026; Sprout Social, 2026).

• Increase LinkedIn posting frequency to at least two posts per week and maintain this consistently for six months, as posting 2–5 times weekly is associated with higher engagement rates (Lang, 2026).

• Establish consistent UTM-tracked profile links within the first month and maintain them for six months to measure LinkedIn-driven traffic and conversions.

02 · CONTENT STRATEGY

LinkedIn — content strategy

Why this platform?

Audience fit

Performance evidence

Strategic opportunity

• NAC’s LinkedIn targets Climate-Engaged Australians aged 25 - 44, a professional audience with potential to support environmental causes. Younger Australians show strong environmental giving intentions, with 41% of Gen Z and 34% of Gen Y likely to support environmentally focused organisations (McCrindle, 2020; NAC Social Media Dashboard, 2026)

• LinkedIn achieved a 5.27% engagement rate above the 5.20% benchmark, while top-performing posts reach 12% ER. Community Story is the strongest campaign theme at approximately 7.5% ER, demonstrating strong audience responsiveness (NAC Social Media Dashboard, 2026)

• Strengthen LinkedIn’s engagement by increasing posting frequency to twice weekly, publishing during NAC’s peak audience times, and using UTM links to convert engagement into measurable action (Lang, 2026; NAC Social Media Dashboard, 2026).

03

Creative Content

03 · CREATIVE CONTENT

YouTube — 30-Second Climate Explainer

Rationale

Platform choice

• YouTube supports content discovery through search, while optimising video topics around audience search intent can improve discoverability (Enge et al., 2023).

Format

• 30-second video using a strong hook, fast-paced visuals, on-screen captions and a clear CTA.

Theme / campaign

Theme: Nature Laws

Caption / copy

• Why do Australia’s nature laws matter? Here’s what they mean for our environment and wildlife.

• Learn more. Take action.

Tone & voice

• Informative, credible and accessible. Complex environmental information is communicated using simple, audience-friendly language.

Posting time

Tuesday: 3 PM - 5 PM

Thursday: 3 PM - 5 PM

Saturday: 9 AM - 11 AM

(FlowShorts Team, 2026)

• Video edited by Ben Nguyen using Capcut and footage from BBC Earth and Top Fives.

• https://drive.google.com/file/d/1JRGSSTjqVbYTlq0TlDAk1uOGBflbKKUv/view?usp=sharing

03 · CREATIVE CONTENT

Instagram — Community Story Reel

Rationale

Platform choice

• Instagram enables NAC to use visual, human-led storytelling to connect environmental issues with relatable community experiences. Community Story was NAC's highest-engagement Instagram campaign theme at 1.37% ER (NAC Social Media Dashboard, 2026). Gen Z also prefers human-driven, authentic brand content (Sprout Social, 2026).

Format

• 20–30 second Reel using human-led storytelling, on-screen captions, authentic footage and a clear CTA.

Theme / campaign

Theme: Community Story

Caption / copy

• Meet the people turning climate concern into action. ■ Small actions can contribute to collective change. Ready to get involved? Join the NAC community through the link in our bio.

Tone & voice

• Personal, authentic, encouraging and community-focused.

Posting time

Weekdays 7-9 AM and 5-8 PM AEST

Peak on Wednesday and Thursday

(NAC Social Media Dashboard, 2026)

03 · CREATIVE CONTENT

LinkedIn — Community Story Post

Rationale

Platform choice

• LinkedIn enables NAC to connect environmental issues with human-led stories for its professional climate audience. Community Story is NAC’s highest-performing LinkedIn campaign theme at approximately 7.5% ER (NAC Social Media Dashboard, 2026).

Format

• Curated, image-led LinkedIn post using a strong human hook, concise storytelling, environmental evidence and a clear CTA.

Theme / campaign

Theme: Community Story

Caption / copy

• At 16, he saw more plastic bags than fish. One dive changed what he decided to do next.

Tone & voice

• Inspiring, credible and informative, connecting individual action with wider environmental impact.

Posting time

Tuesday–Thursday: 8–10 AM and 12–1 PM AEST

Prioritise Wednesday

• (NAC Social Media Dashboard, 2026; Sprout Social, 2026)

05

Conclusion

05 · CONCLUSION

Conclusion

• Key audit findings showed strong engagement but several opportunities for improvement: underused YouTube Shorts, limited LinkedIn posting frequency, misaligned posting times, and inconsistent profile linking across Instagram and LinkedIn.

• The content strategy strengthens NAC’s social media presence through consistent, platform-specific content designed to increase audience engagement and convert that engagement into measurable action.

• The recommendations support NAC’s mission through evidence-led content that educates audiences, strengthens community participation, and encourages action to protect Australia’s nature and climate.

• Next step: Establish YouTube Shorts, optimise Instagram and LinkedIn profile links and posting times, increase LinkedIn posting to twice weekly, and implement these recommendations through the content calendar.

• By building on what already engages audiences and addressing key content gaps, NAC can create a more consistent, audience-focused strategy that strengthens engagement and encourages meaningful environmental action.
